The Ministry of Agriculture, Fisheries, Physical Planning, Natural Resources and Cooperatives, Saint Lucia published 40 Technology Packs under the EU funded Saint Lucia Banana Accompanying Measures (BAM) Project. These Technology Packs provide guidelines for the production of vegetables, fruits, roots and tubers, plantain, tree crops, cut flowers, small ruminants, rabbits, apiculture, pigs, broilers and eggs.

The Technology Packs were prepared under contract by the Caribbean Agricultural Research and Development Institute (CARDI) for the BAM Project. CARDI is pleased to collaborate with the Ministry of Agriculture in disseminating these valuable Technology Packs via CARDI's media and communication channels, and as such, facilitating development of the crop and livestock value chains in the Region.
